

Creating a New Mail Account

From Microsoft Outlook Express click Tools | Accounts

If you see an account you can choose properties and skip to the next section

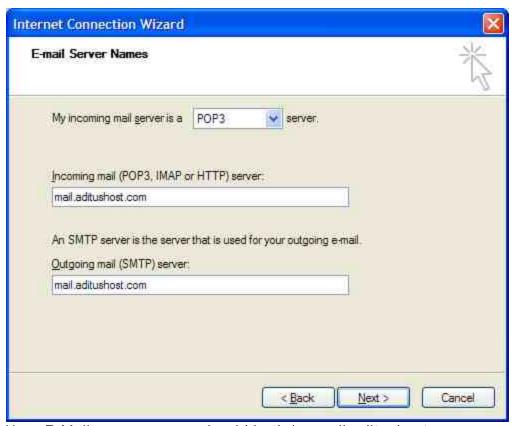

This is just for display so whatever is here is fine, most people type their name

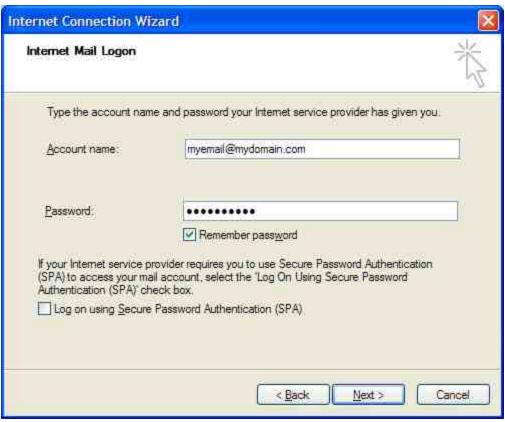

Enter your e-mail address here and click next

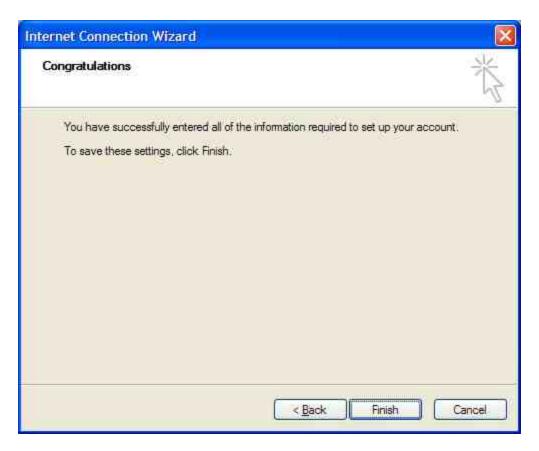

Your E-Mail server names should both be mail.aditushost.com

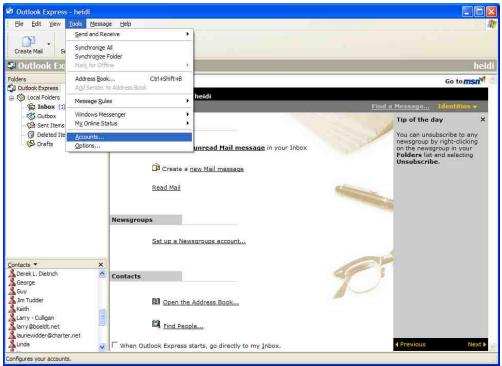

Your Internet Mail login settings here, your Account Name is your e-mail address

Changing an Existing Account

From Microsoft Outlook Express click Tools | Accounts

From the mail tab, select your account and choose properties.

Under the General Tab, make sure email address is correct also make sure include this account when receiving mail or synchronizing is checked.

Under servers, choose POP3 as your incoming server.

Incoming mail is mail.aditushost.com

Outgoing mail is mail.aditushost.com (NOTE: IF YOU EXPERIENCE TROUBLE WITH THIS SETTING USE THE MAIL OR SMTP SERVER PROVIDED BY YOUR ISP, ALSO CONTACT sales@aditushost.com AND LET US KNOW THE INFORMATION SO WE CAN ENSURE PROPER IDENTIFICATION OF YOUR ISPS MAIL SERVER)

Type your e-mail address under account name, and your password provided by Aditus in the password field.

If you use dialup to access the internet, check the "Always Connect to this account using" checkbox and choose the correct connection from the dropdown. Your ISP can provide instructions on how to configure your modem.

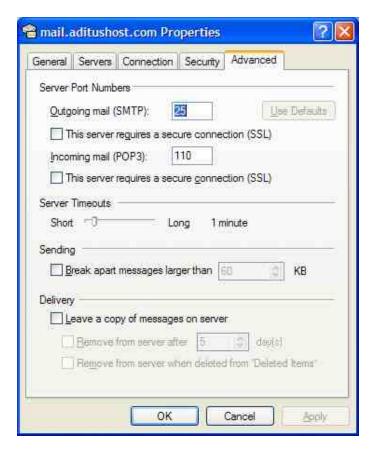

Make sure your setup looks like this screen.

Under advanced, make sure the SMTP server is 25 and the POP3 server is 110.

Click OK when you are done. Your mail is configured.
